

```
1 LLVM ERROR: Global variable '_ZN14virtual_...09a1e7c776E'
has an invalid section specifier '__wasm_bindgen_unstable'
: mach-o section specifier requires a segment whose
length is between 1 and 16 characters.
```

(a) Error Message caused by the bug (Issue #545)

```
4 (quote! {
5   #[allow(non_upper_case_globals)]
